

Is merit (gender) biased?

Advancement in Academia.

A free public panel discussion as part of the LS² Annual Meeting 2019

How do (gender) biases influence the evaluation and selection of scientists?

How can we address (gender) biases and reduce their influence on selection processes?

Gerlind Wallon will summarize the current status of the representation of women in academia.

Marieke van den Brink will report on her studies that reveal how recruitment in academia is influenced by (gender) biases.

Britt Dahmen will present how the cascading model, a quota system required by law, is implemented at Cologne University.

Chair:

Dr. Gerlind Wallon

EMBO Deputy Director & Program Manager

Invited speakers:

Prof. Dr. Marieke van den Brink
*Professor Gender & Diversity
Radboud University, Nijmegen (NL)*

&

Dr. Britt Dahmen
